

## IT'S TIME FOR A CHANGE

Associazione Progetto Calcutta has changed its name to Project for People.

A new name seemed to represent better what we stand for, in view of the growth and changes within the association as well as our established activities within countries beyond India, such as Brazil, Bosnia and more recently, Benin and Africa.

Associazione Progetto Calcutta was founded about 15 years ago with great social aims and minimal structure.

Those who are familiar with our association are aware of our commitment to ensure that our original project of cooperation and development in India achieves its original goals and can strive for more ambitious ones. Thanks to our determination, the Calcutta project was completed successfully and we were able to promote and support further projects which have now become integral part of the association.

We now operate in Salvador de Bahia in Brazil, Srebrenica in Bosnia and Herzegovina and, more recently, Porto-Novo in Benin (Africa).

Taking on these new projects has brought inevitable changes which the association has embraced with enthusiasm and determination, bringing on the change from Progetto Calcutta to Project for People.

Project for People

The new graphics and striking logo are still matched by the old commitment towards long distance adoption, health, education and professional training as well as micro savings and micro credit.
